Setting Up the Projector

1. Press the “ON” button to lower the projector screen and start the projector. The projector will need a short amount of time to start up.
2. Press one of the source buttons on the right to select your input source.
   a. The “PC” button corresponds with the VGA cable (the green cable circled above)
   b. The “HDMI” button corresponds with the HDMI cable (the red cable circled above)
   c. The VGA button corresponds with the VGA inputs in the room (not shown).
3. Control the audio volume with the “VOLUME” knob, and temporarily hide the display with the “MUTE” button.

Turning Off the Projector

1. Press the “OFF” button to raise the projector screen and power off the projector when you are finished.
