

Installing the Capture Software - Windows

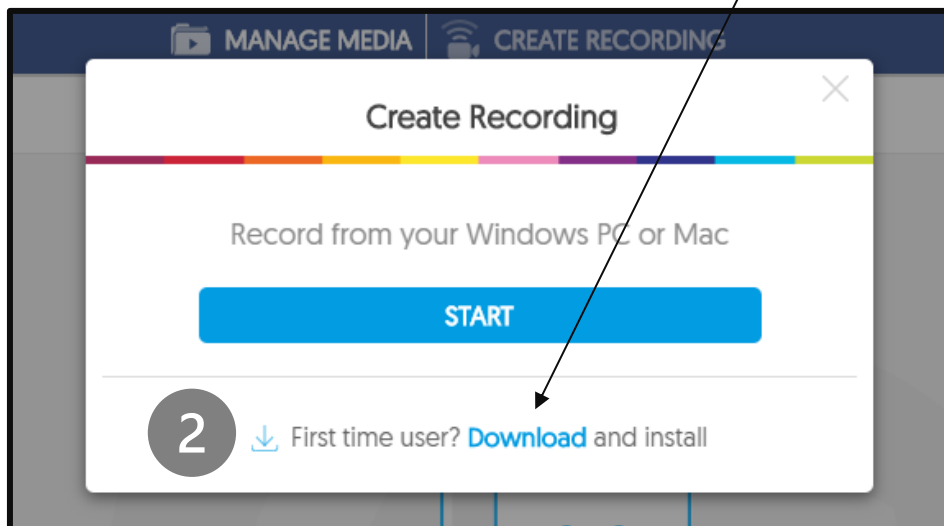

Touro College and University System Instructional Technology Team

DOWNLOAD AND INSTALL

1. Click on Create Recording at the top of the screen

2. Navigate to the First Time User area and Click Download.

3. Wait while your browser downloads the software.
4. Choose a folder location and Click Save if required by your system.
5. Select the file "YuJa-Software-Capture " from your browser

6. Follow the prompts and finish.
7. Now you are ready to start recording. See [Create Recordings using Yuja document](#).
