

Reading Questions for Thursday, April 11, 2019

We ask you to submit comments on the Algorand papers by midnight Wednesday April 10.

Your comments should include both answers to the specific reading questions and generic response about the papers. You are welcome to include any questions you have about the papers in your comments. After submitting your own comments, you'll be able to see others' submitted comments. You can comment on others' submissions and answer raised questions on Canvas. Discussion on Canvas is strongly encouraged.

1 Reading Questions

1. Algorand uses committees to reach consensus. Describe the key characteristics of Algorand committees (e.g. how they are different from other proof-of-state protocols).
2. Why secret self-selection is important in Algorand?

2 Generic Response

Respond to the papers following the guidelines in the course syllabus (under "Submit Comments and Presenting Papers").
