

- **20% - SBG Free Response Questions by Chapter**

This year one of the grading categories will be determined by standards based grading (SBG). SBG tracks a student's performance on a learning outcome throughout the course. For AP Statistics, SBG will be used to assess Free Response Questions. Each question will receive a score of a 4-1 which aligns with an AP Exam scoring rubric. Students can demonstrate a

- 4: Exceeds Expectations
- 3: Meets Expectations
- 2: Approaching Expectations
- 1: Does Not Meet Expectations

Each FRQ grade will be published to PowerSchool so students, parents/guardians and guidance can see the student's progress. Individual FRQ grades will not be counted into the final grade. Your teacher will enter a grade under the category Free Response Questions that corresponds to your mastery of the learning outcome. This grade will be updated at mid semester and the end of the semester. The percentage will be entered as follows:

4.0 → 100%	3.9 - 3.7 → 97%	3.6 - 3.4 → 93%	3.3 - 3.1 → 89%
3.0 → 85%	2.9 - 2.7 → 82%	2.6 - 2.4 → 79%	2.3 - 2.1 → 75%
2.0 → 70%	1.9 - 1.5 → 65%	1.4 - 1.1 → 60%	1.0 → 55%

Canvas will keep track of your mastery of the learning outcome. If you Meet or Exceed Expectations on at least four of your FRQs, the highest 4 scores will be averaged. If you Meet or Exceed expectations on less than four FRQs, all scores will be averaged.

Example: FRQ Scores - 3, 2, 4, 1, 4, 3 → 3.5

Example: FRQ Scores - 3, 2, 4, 2, 1, 3 → 2.5
