Search tips

Try browsing by discipline. Searching by keyword may not return the best results

Use limiters (material type, education level, license type) to narrow down results

Places to search for images

A list of sites containing CC or PD images can be found at: Roola.weebly.com

Select "Image Tools" then "Images to Download"

Places to search for OER (organized from highly curated to most content)

OpenStax

Professionally written and peer reviewed. Also has an ecosystem of low-cost ancillaries.

Lumen

Professionally written. Option for free textbooks or low-cost pre-built Canvas shells.

Cool4Ed

Peer reviews from CCC, CSU, and UC Faculty & accessibility reviews.

LibreText

UC Davis project that builds customized textbooks and resources.

Open Oregon

List of textbooks currently being used by CCs in Oregon.

Open Textbook Library

Curated by University of Minnesota & peer reviewed by faculty nationwide.

BC Campus OpenEd

Curated by British Columbia & peer reviewed by faculty.

Open SUNY

Content created by faculty in the SUNY and CUNY systems.

GALILEO

Content created or used by faculty in the University System of Georgia.

Skills Commons

Workforce training materials. Browse by showcases to find usable resources.

CK12

Has interactives and quizzes.

OER Commons

Narrow results using limiters. Also has curation, collaboration and creation tools.

The Orange Grove

Florida's Open Educational Resource Repository.

Canvas Commons

Material built in Canvas by Canvas users. Variable quality.

Merlot

Vast amounts of material; can be difficult to find relevant resources.

Mason OER Metafinder (MOM)

Provides a real-time federated search from across 18 different sources of OER.

Google Advanced Search

Look under settings or tools for the advanced search and narrow by usage rights.
