Market Validation: Individual Assignment. Due 4/5

Are there enough people who will care about the problem your team is trying to solve? If it's a small number of people, are the volumes and/or dollar values large enough to justify putting your time into this project?

Perform a market analysis for your technology. Use the TAM/SAM/SOM approach that was discussed in the week 7 slides. Also try to use both top down and bottom-up approaches to make sure your numbers are congruent. If possible, validate with secondary market research data points (i.e., information found from reports). It's okay to use some assumptions but be explicit that it is an assumption and not a referenced data point. This is a "back of the napkin" exercise. I'm less concerned with precision and more concerned with understanding that you can validate the problem.
Final Assignments

Teams – Team Pitches

This is the group portion of the final project. Each team will be given ~20 minutes. 10 minutes Pitch and 5-minute Q&A. Students will then be given 2 minutes to complete judging form. That will leave a couple of minutes for transitions, but each team needs to be ready to present as soon as their slot starts.

**Presentation schedule**

Class 14 (3 teams):
Class 15 (6 teams):

Teams are free to decide who presents but a minimum of 3 team members are required to present and all teams members should actively participate in the Q&A.

*All students will individually score the other teams, so attendance is mandatory on both dates as is prompt attendance.*

**Q&A and Scoring: ~5 minutes**

Q&A will be led by the team presenting and questioning will primarily come from the class. I may or may not ask any questions at all. Your individual active participation will be considered as part of your overall final participation grade. I will review all recordings before assigning final grades to ensure you are actively engaged in the questioning of your peers.

**EXTRA CREDIT**

In additional, each *student will anonymously score the other teams' presentations*. This is evidence of your ability to critically evaluate your peers' using topics learned in class.

Due MAY 4
Individual Assignments – Persuasion

Due MAY 5

Your final individual assignment is to persuade someone to support your effort. You pick the target: recruit, investor, customer, etc. (make sure your intended audience is clearly identified or is obvious by the nature of your response). Make an argument to convince your target. Be sure to support your case with things you've learned from working on your team project, for example, solving customer pain, equity to early hires, or return for investors. The format or medium is up to you. A few examples include a recorded sales pitch or commercial that you upload to YouTube, a sample Kickstarter video, a Prezi, a cartoon, or a 1–2-page typed paper... Here's an example of a creative submission from a previous semester: https://youtu.be/eNrq9-sk6Nk

Use your imagination and make it compelling. Be creative and captivate your audience. Holding their attention is half the battle. It doesn't need to be long or elaborate, just convincing. Do what you think best supports your case and choose a medium in which you're confident. Take some risks. You have license to be creative and have fun with this!
As part of your engagement and participation score and as part of your peer's engagement and participation score, complete the assessment of your teammates using this Google Form. You will have 100 points to allocate in some proportion to each of your teammates with some required commentary on their contributions.

## Two Approaches Market Sizing

### Top Down
- Secondary Research Anchored
- Most applicable to existing (similar), re-segmented, clone products/markets
- Similar or adjacent market data available
- Process – Guess/Assume
  - Smallest addressable segment matching product attributes
  - Market share and growth rate (how many?)
  - Pricing relative to available competition (how much?)
  - Market growth rate
  - Resource constraints

### Bottom Up
- Primary Research Anchored
- Only option for new products/markets
- Limited or no specific market data available
- Process
  - Starts (and ends) w/ Customer Discovery
  - Defining your Archetypes Demographics, Psychographics, Behaviors & Reqts
  - Insights into how to define segments
  - Enables identification of beachhead market - “must have” reason to buy
  - Validates value pricing, full product offering, competitive differentiation
  - Allows for better assumptions on market sizing (how many) and financial model (how much)

**Often Misused**

**Often ONLY and best option**
Team Name GarageVana

Business Thesis:
GarageVana helps upper middle class suburban homeowners overcome the pain and frustration of a messy, disorganized garage by giving them a tool to plan and complete their organization project so that they can find what they need when they need it and put it back in the right place when they are done.

Who Has The Problem?

For: the upper middle-class homeowner

Who has: a disorganized, cluttered garage

My solution provides: a fast, effective tool to quickly plan and complete a garage organization project.

Unlike: hiring a garage organization consultant which is expensive and time consuming.
# Customer Archetype Profile

**Instructions**
Fill in the spaces in the worksheet to build out a sample customer archetype, based on the business you discussed earlier. Your archetype should be as complete and focused as you would hope your students’ will be. As you work through this exercise, think about the questions that would help your students understand who makes the buying decision.

What data would you look for?
How do we estimate the market?

• US homes with garages?
• How many homeowners are upper middle class?
• Upper middle class homeowners in suburban regions?
• Annual number of garage storage projects?
• Average value of a garage storage project?
• What revenue per customer?
• One-time or recurring?
Conduct a Bottom-up Target Market Estimate

Complete the graphic to conduct a bottom-up estimate for the opportunity you are using in this course. Compute your total available market, served available market, and target market in dollars of annual revenue.

**TAM**

\[ 54M \times ($30 + $30) = $6B+ \]

**SAM**

\[ 54M \times 0.15 \times ($30 + $30) = $486M \]

**TM**

\[ 1.6M \times 0.15 \times $60 = $14.4M \]

**Notes and Comments**

- US homes with garages = 83M * 0.65 = 54M, Upper Middle Class = 15%
- Annual number of garage storage projs = 1.6M
- Ave garage storage and installation: $1,500 (2% referral fee), $30 app cost, annual subscription $19
Agenda

• Remaining Assignments
• Building a Team (Part 2)
• Business Formation
4. Board of Directors / Advisors

- Shareholders / Members
- Board of Directors / Managers
- CEO
- Employees
- Advisory Boards
4. Filling Boards

• Investors will often require a seat on the Board of Directors
• Each member should bring specific expertise to the table
• Boards are part of building your brand ID
• Look for the ability and willingness to devote time
• Your Boards are more than just a formality – use them!
5. Mentors

• Mentors are the most loosely defined, but often most influential component of your team
• Finding the right mentor involves chance
• Mentors might be angel investors, successful entrepreneurs, faculty members… and not necessarily from your field
• Often motivated by passion or a sense of altruism, wanting to give back.
5. Mentors – defining the role

• Mentors act as a sounding board for all likes of issues and challenges
• There’s a fine line between advising and running the show
  • Remember: it’s still your company!
6. Investors

- Wide array of sources:
  - Friends, Family & Fools
  - Angels
  - Foundations, Specialty Funds
  - Government Initiatives (incl. non-dilutive)
  - Venture Capital
  - Strategics
  - Private Equity

- All money comes with strings attached
- Zero in on the “smart money.”
6. Investors – Smart Money

• Early round investors validate the concept and pave the way for later round investors
• Value can be found in the experience of early round investors
• Ability to support the company in future rounds
  • Syndicate
  • Contacts
• “Dumb” money that follows “smart” money is good
5. Investors – Points to Remember

• The earlier the investment, the greater the risk, therefore greater returns are expected
• $$$ is the primary motivation
• Investors *always* look for the exit strategy.
Termination

• You should know about personality, style, values, etc. within the early weeks
• Reduce liabilities early
New Content: Culture
Culture – six components

1. Vision

   Articulated in mission statement
   a. defines purpose
   b. orients employee behavior
Life is Good®

SPREADING THE POWER OF OPTIMISM
Patagonia’s Mission Statement

Build the best product, cause no unnecessary harm, use business to inspire and implement solutions to the environmental crisis.
Our Blue Box Values

At American Express®, we have a mission to be the world's most respected service brand. To do this, we have established a culture that supports our team members, so they can provide exceptional service to our customers.
Warby Parker was founded with a rebellious spirit and a lofty objective: to offer designer eyewear at a revolutionary price, while leading the way for socially-conscious businesses.
Mission Statement

Honest Tea seeks to create and promote great-tasting, healthier, organic beverages. We strive to grow our business with the same honesty and integrity we use to craft our products, with sustainability and great taste for all.
Our vision and business idea

At IKEA our vision is to create a better everyday life for the many people. Our business idea supports this vision by offering a wide range of well-designed, functional home furnishing products at prices so low that as many people as possible will be able to afford them.
NORDSTROM'S COMMITMENT
In store or online, wherever new opportunities arise, Nordstrom works relentlessly to give customers the most compelling shopping experience possible. The one constant? John W. Nordstrom's founding philosophy: offer the customer the best possible service, selection, quality and value.
Culture

2. Values

Offers guidelines on behaviors & mindset required to achieve vision

Authenticity > Originality
Google Code of Conduct

Preface

"Don’t be evil." Googlers generally apply those words to how we serve our users. But “Don’t be evil” is much more than that. Yes, it’s about providing our users unbiased access to information, focusing on their needs and giving them the best products and services that we can. But it’s also about doing the right thing more generally – following the law, acting honorably and treating each other with respect.

Alphabet Code of Conduct

Preface

Employees of Alphabet and its subsidiaries and controlled affiliates (“Alphabet”) should do the right thing – follow the law, act honorably, and treat each other with respect.
Ten things we know to be true
1. Focus on the user and all else will follow.
2. It’s best to do one thing really, really well.
3. Fast is better than slow.
4. Democracy on the web works.
5. You don’t need to be at your desk to need an answer.
6. You can make money without doing evil.
7. There’s always more information out there.
8. The need for information crosses all borders.
9. You can be serious without a suit.
10. Great just isn’t good enough.
Culture

3. Practices

The enshrinement of values

If a company says, “people are our greatest asset,” it should be prepared to invest in employees in visible ways.
2019 #3 Fortune 100 Best Places to Work

What employees are saying:
“I truly feel that Wegmans is a company where employees can follow the American Dream. We're given endless opportunities to learn and grow. It's a place where those who seek to build a career for themselves while following their passions can do so.”

15 applicants per job opening
94% employee satisfaction

The booming family-owned grocery chain spends more than $50 million a year on training and development for its massive workforce, and is one of the few grocers to help defray school costs—this year it awarded $5 million in tuition assistance. “It’s nice to work for a company that keeps giving instead of taking away,” says one employee.
Culture

4. People

Must share core values → stringent recruiting
Firms with cultural alignment have 30% less turnover

Fit > Talent
Culture

5. Narrative

A company’s story
...it’s history
...it’s heritage
...it’s roots

Even more powerful as part of a firm’s ongoing culture
Company Museums
Culture

6. Place

Seek congruency

a. Geography – industry clusters, customs
b. Architecture – office layout
c. Aesthetic Design – décor
Agenda

• Remaining Assignments
• Building a Team (Part 2)
• Business Formation
Why form a business?

1. Liability
2. Legacy
Liability

• Businesses can be set up to be distinct from their owner(s)
• If set up correctly, actions taken on behalf of the biz do not expose owners to liability
Legacy

• Businesses can evolve
• ...change hands
• ...live *forever*!
