

documentary Behind the Curve

1. How did the gyroscope tests (about halfway through the documentary) and the lasers and leveling tests (starting about two-thirds of the way and concluding at the end) show that flat earthers violate what Lee McIntyre calls the “scientific attitude”? What does science writer Tim Urban mean (at about 1:32:30) in challenging each of us to find out where we are flat earthers? (Note: don’t just repeat what he says; put it in your own words to show that you understand it.)
