

THE QUEST FOR STUDENT SUCCESS & SMARTERMEASURE

Quest for Online Success provides students that are new to online learning and experienced online students with an opportunity to understand the real challenges of this relatively new learning environment, and to develop the skills required to be successful in an online course.

The Basic components of the program include:

- SmarterMeasure Learning Readiness Indicator (LRI)
- Multimedia Tutorials focused specifically on measures in assessment
- Quizzes to test understanding of concepts
- Supplemental skill building resources.

The Quest Modules contain an overview, learning objectives, and quizzes, in addition to the fully accessible multimedia tutorials that engage students in a variety of learning activities. The nine Quest modules align with the seven sections of the SmarterMeasure assessment.

- ✓ **Module 1-3** Particularly important for students new to online or those who have had a previously unsuccessful online experience.
- ✓ **Module 4** Becoming an Effective Online Learner is good for most students.
- ✓ **Module 5-9** Include various support services needed by most students.

SmarterMeasure Learning Readiness Indicator measures 7 areas of learner readiness for online classes.

- Individual Attributes (non-cognitive attributes)
- Life Factors (external to learner's environment)
- Learning Styles
- Technical Competency & Knowledge
- On-Screen Reading Rate & Recall
- Typing Speed & Accuracy
